RESUME HIGHLIGHTS	As a seasoned software engineer, I have architected and implemented a range of secure, modular dashboards . In an effort to enhance productivity, I have successfully reduced the build times of several ReactJS-based projects. My strategic involvement in team expansion has enabled me to leverage my experience and mentor new members , significantly contributing to recruitment drives and team-building endeavors.	
EMPLOYMENT HISTORY		
Mar 2022 — Apr 2023	Program Director & Core Team, BuildBySTL	<ul style="list-style-type: none">• Drafted curriculum to teach core Web3 principles to over 200 individuals, leading them to accomplish side projects with a success rate of 60%.• Initiated strategic partnerships with leading Web3 companies and secured bounties of over \$7k for the projects developed
